MISSION

The mission of Face Forward is to provide physical and emotional reconstruction for women and children who have been victimized by domestic or gang related violence. Face Forward vows to provide each victim with the best possible treatment pro bono.

ABOUT

Face Forward was founded by renowned plastic surgeon and biochemist Dr. David Alessi and his wife Deborah Alessi CEO of Alessi Skincare. Both Dr. and Mrs. Alessi have a long history of supporting charitable initiatives and have served several *not for profit* organizations as both board members and benefactors.

Face Forward works with community leaders around the nation to identify victims of violence who are legitimately working toward recovery and who carry the physical evidence of past abuse. We are able to provide our services to individuals who are committed to their recovery by partnering with local community centers, which offer complementary relief: housing, counseling, job searches, and legal assistance. We are one humble part of the *recovery* puzzle; however, the immediate results of healing efforts provide individuals with the confidence to literally put their best *Face Forward* once again.

Face Forward is a non-profit organization, a 501(c)(3) registered in the State of California. Better than 90% of all donations are directed toward victim treatment and recovery. Since an average patient's treatment costs approximately \$5,000, every penny helps.

FACT SHEET

The statistics are staggering! One in three women globally have been physically abused and approximately half of all murders and disfiguring assaults in major metropolitan areas are gang related. Sadly, there are few treatment options for victims of abuse beyond the underfunded county systems.

Approximately two-thirds of reported domestic violence incidents are classified as "simple assaults," which result in a misdemeanor rather than a felony. However, up to 50% of these "simple assaults" result in physical injuries and disfigurements that are at least as serious as 90% of all rapes, robberies, and aggravated assaults.

Domestic violence is abuse committed by a spouse, a former spouse, a boyfriend or girlfriend, or a cohabitant upon another individual. It is estimated that an act of domestic violence occurs every 15 seconds somewhere in the United States. That figure translates to over 2.5 million victims per year. Abuse affects the lives of the victim, family and the children who live within the boundaries of these abusive relationships.

The effects of continued or traumatic abuse are lasting and indelible. These marks are a constant reminder of a tortuous past and significantly affect the ability of former victims ability to integrate with the public, erase the past and the find courage to move forward with dignity.

SAUNDRA

A FACE FORWARD PATIENT

Face Forward's Annual Gala is held each year to help patients like Sandra. Sandra survived a brutal attack from her husband which caused a horrific aftermath of gangrene 20 years ago. Dr. Alessi and his surgical team works pro bono with all of Face Forward's patients. Each year the money raised from our Gala goes towards helping brave patients such as Sandra.
